

Braille **EDGE40**

More than a Braille display!

Thanks to EDGE, I enjoy my work and much more free time!

It is highly convenient to drop a top marker at any point in a file and move to the bottom of the selected area and copy, paste, cut or delete without having to go into a menu to perform these actions. It's brilliant!

Braille **EDGE40**

Most Powerful and Versatile Braille display with the features of Basic notetaker!

Braille EDGE 40 is simply the most reliable and smartest Braille display ever. Connect, read and write with your PC or iOS, Symbian or Android mobile device.

- **Design and Manage your daily life with 7 built-in Applications**

Create and save notes! Read your books and documents with Notepad and save it to the SD Card.

Use the Scheduler to remind you of important dates and events.

Set up Alarm for upcoming appointments.

Take advantage of the built-in Calculator, Stopwatch and Countdown timer.

- **User friendly Function keys and Mouse connectivity**

The 9-key Perkins keyboard along with two 4-way navigation keys and 8 function keys combine the convenience of entering text in Braille with the intuitive functionality of a computer keyboard.

- **Choose your Language**

Braille EDGE 40 offers you the convenience and flexibility to choose among 17 of the most commonly used languages.

- **Compatibility with major Screen Readers in the market**

The Braille EDGE 40 serves as a USB or Bluetooth Braille terminal for many screen readers across multiple platforms, including JAWS, Window-Eyes, SuperNova, System Access and NVDA for Windows, VoiceOver for Mac as well as iPhone and iPad, BrailleBack and Mobile Accessibility for Android and Mobile Speak and Talks for Symbian.
