Productivity Magnified : Look, Listen and Play

Look

Enlarge any printed material clearly and accurately.

Listen

Simply capture images and OCR recognizes the text, then reads it using the built-in TTS voices while the text is highlighted on the visual display.

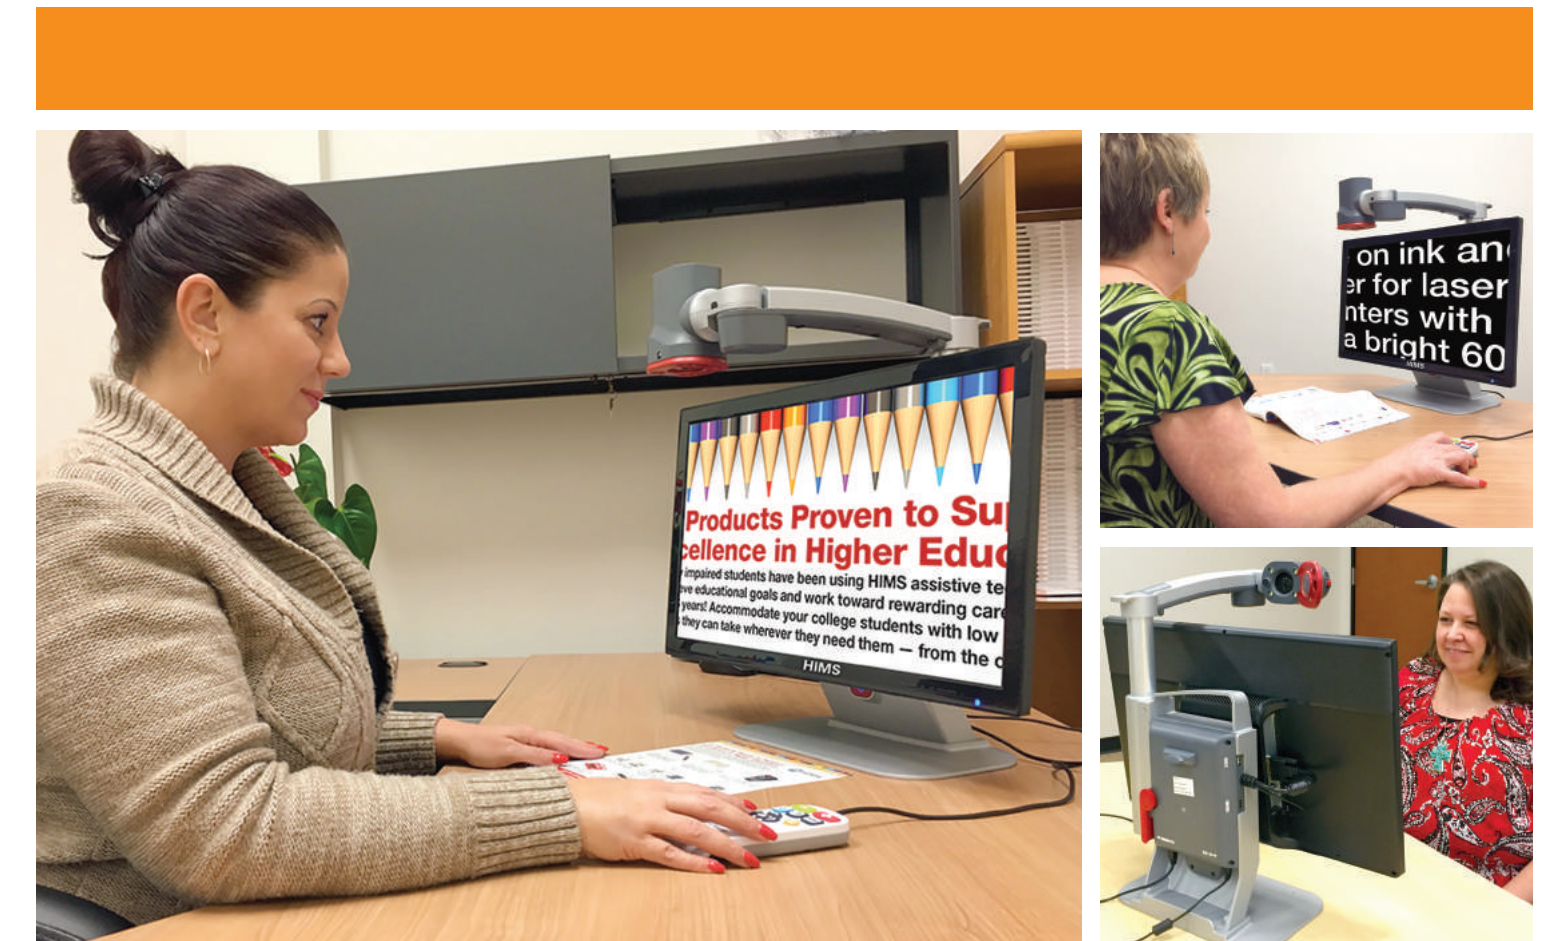

Play

Open and read documents aloud, view images, even play videos via thumb drive and change the color, text size and contrast.

GoVision

Enlarge your view, expand your world

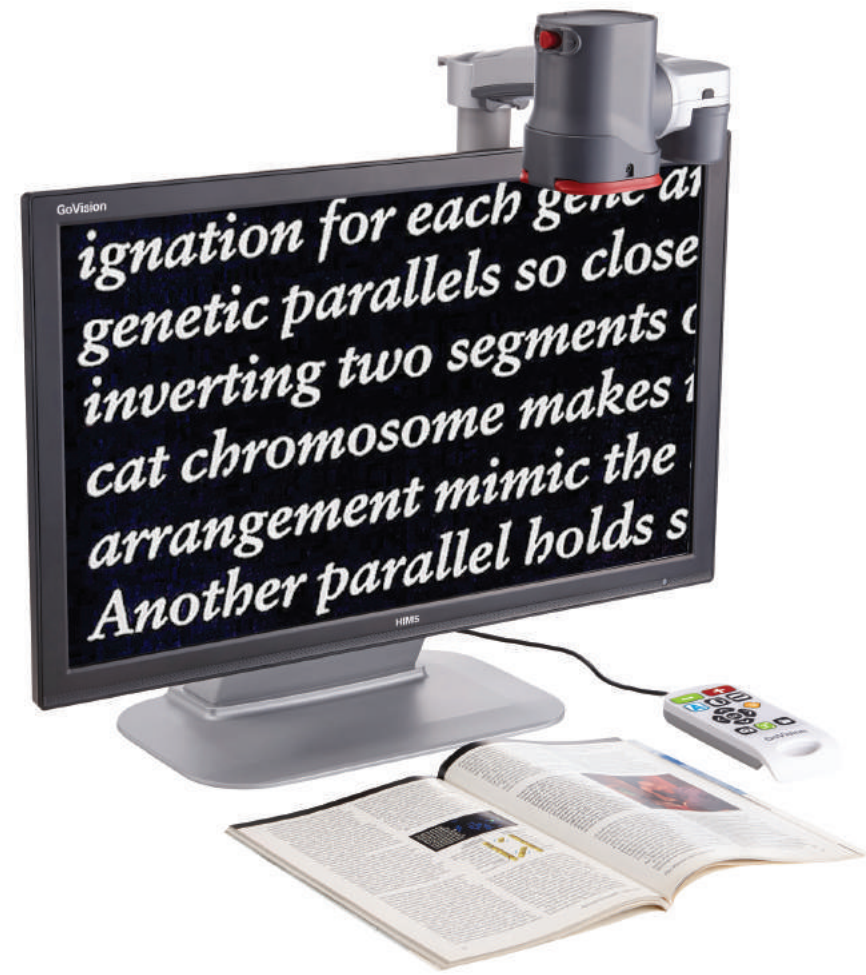

Increase your focus, Magnify your productivity!

Increase your focus, Magnify your productivity!

- Transportable Read, Write and Distance Video Magnifier with 24" LCD, Built-in OCR and USB Port.

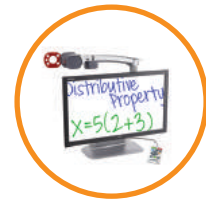

GoVision at a glance

GoVision is a 24 inch electronic magnifier designed for low vision users. It offers near, distance and self-viewing modes, enabling you to clearly expand your view of any object you want to see. GoVision also features a built-in document and media viewer, OCR(Optical Character Recognition) and TTS (Text-To-Speech).

Blurry free image and Natural Color

Designed to preserve one's vision, GoVision displays a blurry free magnified image with vibrant, true-to-life coloring.

3-in-1 camera for Near, Self, and Distance View modes

GoVision ensures a clear image whether viewing text or photos in front of you, a presentation at a distance, or viewing your own beautiful visage.

Built-in OCR and TTS

GoVision's intuitive wired remote makes it easy to capture and recognize printed text, which can be read aloud immediately or saved for later use.

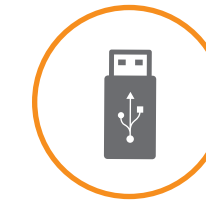

Document Magnifier and Video Player

Unique to GoVision is its built-in File browser and innovative Viewer application. View and magnify documents, photos and videos directly from a USB flash drive.

GoVision Goes Where You Go!

Transporting GoVision from home to school or work is easy. Simply rotate the camera arm and camera head so they are parallel to the screen, then raise a single lever to lower them into position.

Data saving

Save captured images and OCR results to a USB Flash drive for later viewing.

Digital Photo frame and Screensaver

When GoVision is not in use, protect your screen and show off images of your family, friends and excursions by playing a slideshow of saved images on a connected USB Flash drive.

Time and Date

Never wonder what the day or time is with a 24" full screen, high contrast visual clock.
